

ERIC CHANG TAT SENG

Computer Science / Information Technology Student

☎ 012-5790910 ✉ ssk1013eric2@gmail.com 🔗 <https://github.com/sskeric> 📍 Alor Setar, Kedah, Malaysia

SUMMARY

IT student with strong foundations in software development and programming, with hands-on experience in web development and IT support. Passionate about building efficient applications and continuously learning emerging technologies such as AI and data-driven systems. Seeking opportunities to apply and grow technical skills in a software development or AI-related role.

EXPERIENCE

- 08/2022 - 2023

Alor Setar, Malaysia

●

Internship - Computer Technician (Kedah Health State Department)
Performed troubleshooting of PC hardware and software issues, system installation, hardware testing, and data backup/formatting. Developed a web application using the Laravel framework to support internal operations.
- 01/2023

Malaysia

●

Freelance Computer Technician
Provided PC maintenance services including hardware assembly, system troubleshooting, software installation, and system upgrades for client-based requests.

PROJECT

- Final Year Project (Offline LMS Platform)**
Designed an offline learning management platform that replicates the core functionality of an online Canvas platform with a streamlined set of essential features.

AI Support Chatbot (Flask)
Developed a Flask-based AI chatbot for first-line IT support, enabling instant troubleshooting through FAQ matching and AI-based issue classification with automated incident logging.

Expense Split Tracker (Full-Stack Web)
Built a full-stack web application for group expense management, enabling users to track shared expenses, record payments, and monitor balances in real time.

TECHNICAL SKILLS

Programming Languages: C, C++, C#, Java, JavaScript, PHP, Python, Kotlin, VB.NET
Web Development: HTML, CSS, JavaScript (Vanilla), React, Node.js, Flask, Laravel
Databases: MySQL, MongoDB
Tools & Platforms: GitHub, Jupyter Notebook, Render, Vercel
Concepts: Machine Learning, JWT Authentication

CERTIFICATIONS

- TRIZ (Theory of Inventive Problem Solving) – Level 1 & Level 2**
24 September 2023 - 01 October 2023

MUET (Malaysian University English Test) – Band 3.5
15 September 2022

EDUCATION

- 01/2024 - 01/2026

Malaysia

●

Bachelor of computer science
INTI International University
- 09/2019 - 01/2023

Malaysia

●

Diploma of Information Technology
Politeknik Sultan Abdul Halim Muadzam Shah (POLIMAS)

INTERESTS

- 💎 **Software Development**
Interested in building efficient web and system applications with scalable architecture.

💎 **Artificial Intelligence**
Interested in machine learning and how AI systems are trained and applied in real-world applications.

💎 **Gaming & Game Development**
Interested in game design and development, including how gameplay systems and engines work.

💎 **Data Analytics & Data Science**
Interested in extracting insights from data through analysis and visualization techniques.

STRENGTHS

- 💎 **Problem-solving skills**
Able to simplify complex problems into efficient solutions.

💎 **Self-Learning Ability**
Quick to learn new technologies independently.

💎 **Independent working**
Able to complete tasks with minimal supervision.

★ **Public Speaking**
Confident in expressing ideas clearly in front of others.
