SUMMARY

IT Student looking for internship opportunities with solid foundation in software development and programming, with hands-on experience in web development and IT support. Passionate about building efficient applications and continuously learning emerging technologies such as AI and data-driven systems. Seeking opportunities to apply and grow technical skills in a software development or AI-related role.

EXPERIENCE

08/2022 – 2023

Alor Setar, Malaysia

Internship - Computer Technician (Kedah Health State Department)

Performed troubleshooting and maintenance of PC hardware & software, including system repairs, updates, and upgrades.

01/2023

Malaysia

Freelance Computer Technician

Provided PC maintenance services including hardware assembly, system troubleshooting, software installation, and system upgrades for client-based requests.

PROJECTS

Final Year Project (Offline LMS Platform)

Designed an offline learning management platform that replicates the core functionality of an online Canvas platform with a streamlined set of essential features.

AI Support Chatbot (Flask)

Developed a Flask-based AI chatbot for first-line IT support, enabling instant troubleshooting through FAQ matching and AI-based issue classification with automated incident logging.

Expense Split Tracker (Full-Stack Web)

Built a full-stack web application for group expense management, enabling users to track shared expenses, record payments, and monitor balances in real time.

TECHNICAL SKILLS

Programming Languages: C++, C#, Java, JavaScript, PHP, Python, Kotlin

Frameworks & Technologies: ASP.NET, React, Node.js, Flask

Web Development: HTML, CSS, JavaScript (Vanilla)

Databases: MySQL, MongoDB

Tools & Platforms: GitHub, Jupyter Notebook, Render, Vercel

CERTIFICATIONS

TRIZ (Theory of Inventive Problem Solving) – Level 1 & Level 2

24 September 2023 – 01 October 2023

MUET (Malaysian University English Test) – Band 3.5

15 September 2022

EDUCATION

01/2024 – 01/2026

Malaysia

Bachelor of Computer Science (CGPA: 3.48)

INTI International University

09/2019 – 01/2023

Malaysia

Diploma of Information Technology (CGPA: 3.74)

Politeknik Sultan Abdul Halim Muadzam Shah (POLIMAS)

LANGUAGES

English - Intermediate | Malays - Intermediate | Chinese - Fluent

INTERESTS

- Software Development** – Interested in building efficient web and system applications with scalable architecture.
- Artificial Intelligence** – Interested in machine learning and how AI systems are trained and applied in real-world applications.
- Gaming & Game Development** – Interested in game design and development, including how gameplay systems and engines work.
- Data Analytics & Data Science** – Interested in extracting insights from data through analysis and visualization techniques.

STRENGTHS

- Problem-solving skills** – Able to simplify complex problems into efficient solutions.
- Team collaboration** – Excellent communication and collaboration skills.
- Self-motivated** – Ability to learn new technologies quickly and complete tasks efficiently with minimal supervision.
- Public Speaking** – Confident in expressing ideas clearly in front of others.
